# PARTING STONE®

Looking for a clean alternative to ashes? Solidified remains from Parting Stone® enable you to feel close and connected to your loved one in daily life. Parting Stone's unique process solidifies 100% of the ash into a form of remains that resembles a collection of 40-60 stones. Share your solidified remains with family and friends and let everyone heal in a way that is special to them.

#### SOLIDIFIED REMAINS

Adult - 71215485

Infant - 71215689

**ADULT - \$895**  
**INFANT - \$595**

## The Science

### Parting Stone® Solidified Remains

#### Step 1: Refinement

We remove foreign contaminants like staples and screws from the cremated remains. The granule "ash" is refined into a powder.

#### Step 2: Stone Forming

A small amount of binder is added to the ash, the remains are mixed into a clay-like material, and the stones are formed.

#### Step 3: Solidification

The stones are heated in a kiln giving the solidified remains their hardness and permanence.

#### Step 4: Return Home

Finished solidified remains are cleaned and polished. Your stones are ready to come home and be shared with family and friends.

What color are your stones? The appearance of each collection of solidified remains is 100% natural. People can result in different hues and textures making each stone uniquely beautiful.

# NATURAL STONE

Natural stone urns offer the elegance of natural beauty combined with the visual interests of color and texture variety. No two pieces are alike, and natural variations of color and design will occur. These are not flaws, but are indicative of the way that naturally-occurring stone develops in nature. Our alabaster, jade, and marble urns are a stunning representation of your loved one, and offer a peaceful addition to your home décor or niche.

CULTURED MARBLE PERSONALIZATION

For personalization options, see price list.

Due to the unique shape of the individual urn, photos can only be placed on the top.

# ECO-FRIENDLY

For families who prefer an environmentally-friendly urn, Matthews is proud to offer choices for water and earth burial as well as scattering. Each urn is made from the finest biodegradable, compostable, or recycled materials. If preferred, these urns may be kept for display, as they will not breakdown until buried, placed in water, or exposed to the elements.

All eco-friendly urns include a unique geotag feature which allows you to digitally locate a loved one's exact final resting place. You can upload a photograph and create a personal online memorial that can be viewed by friends and family. Additional program details and instructions are included on product packaging.

## REPURPOSED WOOD MOSAIC URNS

These rustic urns feature unique, blended woodgrain and are handcrafted from pre-consumer upcycled wood, then finished with a natural beeswax coating to seal and protect the urn. Made without toxic adhesives or finishes, these urns are suitable for earth burial, or can be placed in a home or niche.

Twist the top half of the urn counterclockwise to open. Included inside each urn is a biodegradable bag. Place the empty bag into the urn and carefully fill the bag with cremated remains. Securely close the bag with the tie provided, then reattach the top of the urn.

This urn can be placed in a home or niche. If buried directly in earth, it will biodegrade over time, and the length of time for degradation will depend on local environmental soil conditions.

This product is certified by the Green Burial Council and can be used as a part of a conventional or green ritual. It is appropriate for traditions requiring full biodegradability.

### BIOTREE®: HOW IT WORKS

-  Add cremated remains to the base of the Biotree Urn.
-  Plant seeds redeemed from the provided seed certificate, or purchase tree sapling.
-  Just add water. No need to add soil, and the Biotree will treat the cremated remains.
-  Watch a loved one become a tree. Biotree Urn may be kept inside until it begins to crack, then it is time to plant the urn.
-  The Biotree Urn and cremated remains are returned to nature as the tree grows.
-  Using the included tag, the location of the tree can be geotagged and families can create an online memorial to share with friends and family.

Scattering tubes feature a removable lid, and perforated "push-in" tab to easily dispense the cremated remains. They contain no metal or plastic components and can be recycled or composted after use.
