

Carl Scott Johnson

February 18, 1976 - July 19, 2023

Carl Scott Johnson was born on February 18, 1976 in Provo, Utah. He was raised in Idaho but relocated to Rocklin, California during his high school years. As a natural born athlete, he participated in two football section championships during his years at Del Oro High. He went on to raise his family in Sacramento, California.

Carl strongly believed in the importance of education and went on to receive a bachelor's in computer science from National University. Throughout his life, Carl had a successful career in computers, most recently employed as a software engineer for a Bay Area startup.

Carl had a deep love for animals, sports, movies, music, fishing, but above all, his children and grandchildren brought him the greatest pride. He had a remarkable ability to make everyone laugh and was known for being a compassionate and loving friend to those fortunate enough to know him. You could always count on his laughing and whistling amidst the tears and hard times.

On the afternoon of July 19, 2023, Carl passed away suddenly and peacefully due to heart failure at the age of 47, in his residence in Vacaville, California.

Carl is survived by his children Isaiah (Kaity), Camri, Jacob, and Kyle, as well as his granddaughters London & Lyla. He is also survived by his parents, Scott & Jacqueline Johnson and brothers Ben (Bethany), Eric (Holly), & Matt (Stephanie).

Preceding him in death was his younger sister and best friend, Rachel.

Tribute Wall

“ A sympathy card was purchased for the family of Carl Scott Johnson.

July 27, 2023 at 12:45 PM

“ I always enjoyed being with Carl. We were sitting all together as a family and just visiting one afternoon and Carl started to run his fingers through Tiffani's hair. I enjoyed seeing that type of affection to Tiffani from him. I wished that my husband would do that with my hair.

I am sad he will not be with us anymore. I am most sad that his children will not have their father in the years to come, he was such a good friend to them.

JJ

I was privileged to be Carl's mother! He was quite a handful in his younger days, having suffered from ADHD! He had a very hard time learning the concept of one's, ten's and hundred's! It took a lot of time with me showing him with popsicle sticks and dry beans! He overcame those challenges, his learning disabilities, and became a computer engineer, creating things that needed super mathematical equations 🤖!!

He had a great love of fishing, starting at the age of three with a stick and a string! He found great pleasure from that, and shared it with his younger brothers, sons, and nephews!

I will miss him dearly 😞!! Recently we spoke on the phone for nearly an hour every week! We were on our way to helping solve many woes of the world!

He had a great faith in God 😊! When his dear sister, Rachel died, we spoke of how someday we'll be together again! Now, my faith in God and Jesus Christ tell me I will see both of them after I pass from this frail existence! I still will grieve the losses of their companionship, but look forward to the day we will be reunited in love 😘❤❤!! —Jackie Johnson
